

1. Design of a runway or runways
2. Order issued requiring aircraft that meet specific criteria to remain on the ground at their location
3. Location from which aircraft flight operations take place
4. Rules governing all of aviation activities
5. Comprehensive suite of state-of-the-art technologies that allow aircraft to move more safely and efficiently from private jet airports to their destination
6. Documents which provide a sole agency-wide system that the FAA uses to deliver advisory (non-regulatory) material to the aviation community
7. Common network of U.S. airspace
8. Area beyond the takeoff runway under the control of airport authorities within which terrain or fixed obstacles may not extend above specified limits
9. Provides grants to public agencies, private owners and entities for the planning and development of public-use airports
10. Announcement filed with an aviation authority containing potential hazards along a flight route

A. Federal Aviation Regulations

B. Advisory Circular

C. Notices to Airmen

D. Aerodrome

E. Runway Configuration

F. National Airspace System

G. Clearway

H. NextGen

I. Ground Stop

J. Airport Improvement Program
